Consider the following line of code:

with open(example1,"w") as file1:

What mode is the file object in?

- read
- write
- O append

```
with open("Example.txt","a") as write
writefile.write("This is line A\n")
writefile.write("This is line B\n")
```

- Read the file "Example.txt"
- Write to the file "Example.txt"
- Append the file "Example.txt"

What do the following lines of code do?

```
with open("Example3.txt","w") as file1
file1.write("This is line C\n")
```

- Read the file "Example3.txt"
- Append the file "Example3.txt"
- error
